Preliminary document Based on supplier data only. Verify load rating, operating method and safety instructions before use.

Before Use

- Confirm the floor is level and stable.
- Fully position and secure all support legs.
- Inspect visible structural parts and fasteners before lifting.
- Use only suitable mounted equipment and hardware.

Use Notes

- Raise and lower the stand only according to the verified operating method.
- Keep personnel clear of the load path during adjustment.
- Do not move the stand while equipment is lifted.
- Stop operation if abnormal noise, binding or instability occurs.
